

**IN THE
TENTH COURT OF APPEALS**

No. 10-22-00052-CR

IN RE LAWRENCE RAY DOUGLAS

Original Proceeding

**From the 82nd District Court
Falls County, Texas
Trial Court No. 6442**

ORDER

On February 22, 2022, Lawrence Ray Douglas filed a Petition for Writ of Mandamus seeking to have this Court “compel the convicting court, as a matter of law, to make its findings and conclusions of law and, if necessary, to conduct an evidentiary hearing without further delay.” On March 29, 2022, the trial court notified this Court that it had made the requested findings of fact and conclusions of law and that the findings had been served on Douglas. On April 6, 2022, this Court issued an opinion finding that Douglas’s Petition for Writ of Mandamus was now moot and dismissing the petition for

want of jurisdiction. On April 11, 2022, this Court received Lawrence Douglas's "Motion to Rebut Trial Court's Findings and Conclusions." This Court does not have jurisdiction in the current proceeding to review the trial court's findings. Douglas received his requested relief that the trial court "make its findings and conclusions of law." Therefore, the Motion to Rebut Trial Court's Findings and Conclusions is dismissed.
